

Frozen Lego Fun

What you need? Ice cube tray; a bowl or tray to put the cubes in once frozen; salt and water for salty solution; spray bottle.

Extras: Lego blocks, pom poms; food dye etc.

Fill ice cube trays with water and any extras that you have. Freeze in the freezer. Once frozen, pop them out into a dish, bowl or tray.

Make a saltwater solution and put into spray bottle. Allow the child/young person to spray the solution and watch the cubes melt.
